| W3 Validators | | | Notes |
|---|---|---|---|
| CSS Validator | PASS | | All conerns have passed, the site is responsive across all browsers and devices that I have tested on perosnally and from user feedback on other devices no one has reported any issues in relation to user experiance and the user interface |
| HTML Validator | PASS | | MacBook Air and iPad testing where carried out over the phone with a relative as there was no chance for us to meet up, I tried to be as accurate as possible over the phone and believe the results are probably about 95% accurate |
